Corporate members are companies who foster productive and mutually beneficial relations between industry and IPAC Canada which are based upon an understanding of each other's goals and are of the highest ethical standards. See Corporate Partners page, policy and Corporate Member application at www.ipac-canada.org. Individual and Institutional Membership is welcomed from all business/industry members.

PLATINUM

3M Infection Prevention Solutions

3M Health Care

As a trusted global leader, 3M Infection Prevention has fundamentally laid the foundation

for infection prevention from pre-op to intra-op to post-op. Backed by the broadest portfolio of perioperative solutions, 3M collaborates with you to help your facility manage Surgical Site Infections associated risk factors, improve patient and staff safety, and manage costs. For more information about our products please call 1-800-364-3577 or visit our website at www.3M.com.

Ecolab Healthcare

ECOLAB®

Ecolab partners with healthcare customers to deliver infection prevention solutions that help increase efficiency, improve outcomes

and reduce the risk of HAIs. We are committed to providing customers with innovative solutions that solve their business challenges. Our comprehensive line of infection prevention solutions includes products for environmental hygiene, hand hygiene, instrument reprocessing, surgical draping and temperature management. Everywhere safety matters. Everywhere health matters. Ecolab is everywhere it matters.

GOJO Industries Inc.

For over 65 years, GOJO has been a leader in the areas of infection control and skin science and is your single source provider to help increase hand hygiene compliance,

reduce infections and improve patient outcomes. We offer a wide range of comprehensive, science-based solutions to help overcome common barriers to hand hygiene compliance including revolutionary and skin-friendly product formulations in PURELL® and GOJO® brands, smart, easy-to-use dispensing platforms, and customizable electronic compliance solutions with clinician-based support options to truly make a difference. To learn more call 1-800-321-9647 or visit GOJOCanada.ca/healthcare.

The Clorox Company

The Clorox Professional Products Company is a leading manufacturer of cleaning and disinfecting products. Clorox Healthcare™ delivers some of the most trusted and recognized infection prevention solutions for healthcare settings, including Clorox Healthcare™ Professional Disinfecting Bleach Wipes and Bleach Cleaner, Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes, and Clorox® Clean-Up Disinfectant Bleach Cleaner. These products are fast-acting, Health Canada registered disinfectants intended for use by healthcare professionals to help stop the spread of infections. For more information, visit www.cloroxhealthcare.com.

Virox Technologies Inc.

Virox Technologies Inc. is a Canadian company whose mission is to equip the entire spectrum of global markets that are concerned with infection control with the state-of-the-art antimicrobial technology Accelerated Hydrogen Peroxide (AHP). AHP has been developed and patented by

Virox and is under licence to leading infection control companies around the globe such as Steris Corp., Diversey, Bayer, DEB and SciCan among others who all proudly display the Accelerated Hydrogen Peroxide logo on their product offerings. The AHP technology offers healthcare professionals a broad array of products ranging from surface cleaners and disinfectants, hand sanitizers, instrument cleaners and instruments disinfectants for any medical device requiring high level disinfection or sterilization, including heat sensitive devices.

SILVER

DebMed/Deb Canada

Deb Canada introduces DebMed, a comprehensive hand hygiene program including electronic compliance monitoring, point-of-care and single-dose dispensing and a full line of products designed specifically for healthcare.

The DebMed® Group Monitoring System (GMS™) is the world's first electronic hand hygiene monitoring system developed from proven scientific research and the only one based on the Four Moments for Hand Hygiene.

This low-cost system automatically and continuously collects hand hygiene data, giving facilities access to better and more accurate data than direct observation. It encourages feedback and team collaboration, and includes training and an online toolkit of materials to support your facility's hand hygiene initiative.

DebMed® can help you create a culture of safety in your hospital.

Hygie Canada

Hygie Canada is a forward-looking company which markets specialized products aiming to limit the spread of pathogens and hence reduce the risks of infection. We offer a range of innovative products used by both health facilities and at-home care givers. These user-friendly products help professionals and care givers meet needs of their daily activities.

Sage Products

Sage Products LLC is a worldwide leader in infection prevention products that deliver extraordinary outcomes for patients and healthcare providers.

Our innovative products make it easier for nurses to deliver essential patient care by addressing the risk factors that can lead to hospital-acquired infections.
