

Dear Karen and CHICA-Canada members,

Thank you so much for your good wishes for my recovery. I am doing very well and looking forward to experiencing the best from our health care system!! I have ample supplies of Virox and a lovely gift basket from PIDAC that includes everything from chocolates to infection control equipment!

Anyway, I remember warmly my remarks at your last annual conference in London, and hope that someday our paths will cross again.

With kind personal regards and best wishes for 2007,

Sheela
