

PETERBOROUGH REGIONAL HEALTH CENTRE IS HIRING!

Seeking an experienced Manager for our Infection Prevention and Control department.

Peterborough Regional Health Centre (PRHC) is a state-of-the-art regional hospital with a proud local history extending back over a century. The Health Centre is located in Peterborough, Ontario, boasting a mere a 90-minute drive north-east of Toronto and known as the gateway to Kawartha cottage country. With a capacity of 494 beds, our regional hospital has one of the busiest Emergency Departments in Ontario and offers an extensive range of services, including specialized programs in renal, stroke, cardiac, cancer care, and vascular surgery.

We wouldn't be the hospital we are today without people and nothing is more important to us than our team of dedicated employees. At PRHC, we pride ourselves on creating and maintaining a workplace of choice, where people are valued, recognized, and treated with respect.

What we are looking for:

We are looking for an energetic and compassionate Manager, Infection Prevention and Control to join our growing team at PRHC. Our ideal candidate is a strong leader who thrives in a fast-paced and high-stress environment. We are looking for someone who not only excels in their field, but an individual that also wields a strong desire to learn by developing their skills and knowledge through continuing education/training. If this sounds like you and you're ready for the next step in your career, we want to hear from you!

What You'll Do:

Reporting to the Director of Risk, Patient Relations & Medical Affairs, the Manager of Infection Prevention and Control is responsible for leading the Infection Prevention and Control (IPAC) team to be an outstanding partner in identifying and reducing the risk of hospital-acquired infections for patients at PRHC.

What You'll Bring:

- Post-Secondary Degree in a related field required, Masters preferred
- Certification in Infection Control and Epidemiology preferred
- Solid understanding of diseases and disease process/transmission, and interpretation of infection control guidelines
- Strong project management and quality improvement skills and experience
- Three to five years of health care leadership and/or management/project management experience preferred
- Demonstrated ability to plan, coordinate and execute large and/or complex projects
