

# Join Our 20-Minute Master Class!

Learn to identify, control and eliminate outbreaks – fast!

Cold and flu season causes **1.5 million missed workdays** every year, affecting health, wellness and overall workplace productivity. Join our 20-minute Master Class to learn to identify, efficiently control and eliminate outbreaks to **protect your workforce and your business**.

Join us for the second installment in our cold and flu webinar series to learn how to incorporate cold and flu outbreak management into your business continuity planning. Presented by recognized **Infection Control Specialist, Barley Chironda, RPN** and Cleaning, Hygiene & Sanitation expert, David L. Smith, ESP, you'll learn:

- **How to structure your outbreak management team**
- **9-step outbreak action plan**
- **Site-specific workplace strategies**
- **Key steps to reduce outbreak impact**

Attendees also receive a free **Cold & Flu Outbreak Management Guide** including outbreak cleaning strategies with step-by-step processes for managing outbreaks in long-term care homes, post-secondary campuses, building service contractors and correctional facilities.

**Don't get caught by the flu. Space is limited – register today!**

**THURS, JAN 24 | 12PM ET, 9AM PT**
