Hospital

L'Hôpital  
d'Ottawa

Inspired by research.  
Driven by compassion.

Inspiré par la recherche.  
Guidé par la compassion.

## **Manager, Infection Control**

Inspired by research and driven by compassion!

The Ottawa Hospital (TOH) is one of Canada's largest learning and research multi-campus hospitals. With more than 1,100 beds and approximately 12,000 staff members, we deliver specialized care to the Eastern Ontario region.

From the compassion of our people to the relentless pursuit of new discoveries, The Ottawa Hospital never stops seeking solutions to the most complex health-care challenges while continually engaging with the community to support our vision for better patient care.

Working together with its research institute, the University of Ottawa, and other partners, the hospital is continually gaining national and international recognition for high-quality patient care, teaching and research, while striving to meet the needs of the culturally diverse community we serve.

### **Position Information**

The Manager of Infection Prevention and Control will provide both leadership and content expertise related to IPAC within TOH. The manager of IPAC will work to proactively identify IPAC threats to the organization, develop and implement plans to respond to these and other IPAC issues, and mitigate IPAC risks. The manager must be able to critically assess urgent issues and guide a timely and appropriate response. The manager of IPAC will chair relevant committees and working groups associated with IPAC objectives and will work closely with internal stakeholders, the Director, and the Medical Director for IPAC to advance IPAC goals. The manager of IPAC will report organizationally on IPAC auditing, performance and key indicators. The IPAC manager will also oversee development of staff seeking to obtain relevant certifications.

### **Rotation/Shifts**

Days, 8-hour shifts

### **What you will bring**

- Master's Degree;
- Regulated healthcare professional CIC certification;
- Five (5) years of previous IPAC experience;
- Three (3) years of previous leadership experience;
- Expertise in Infection Prevention and Control standards and best practices;
- Ability to work with numerous internal and external stakeholders, and with competing pressures, to achieve IPAC objectives;

- Ability to summarize complex data and information into key messages for quality improvement and practice changes;
- Ability to assess risk and prioritize direction for IPAC when multiple issues arise simultaneously.

2

**You will stand out with (Preferred Requirements)**

- Demonstrated experience and certification in healthcare QI;
- Experience and/or training in Principles of adult learning theory.

**What you can expect from us**
