SPACE IS LIMITED, SMALL CLASS SIZES TO FACILITATE TAILORED AND ENGAGED LEARNING

PI-100: Infection Prevention and Control

Course Begins May 8, 2023

This 90-hour, hybrid online learning experience offers an up-to-date, comprehensive and evidence-based course covering basic and intermediate Infection Prevention and Control (IPAC) principles. All of our instructors and Program Coordinator are Certification in Infection Prevention and Control (CIC) certified and use a combination of video lectures, discussion boards, live sessions, quizzes, group and individual work to help prepare students for a successful career in IPAC and for writing the CIC!
