

## **Subject Matter Experts(s) to revise Infection Prevention and Control Standard and Required Organizational Practices**

**Terms:** Contract until December 2022  
**Recruitment:** Deadline June 3, 2022  
**Location:** Virtual

Health Standards Organization (HSO) and our affiliates Accreditation Canada (AC) and the Institute for Quality Management in Healthcare (IQMH) are global, not-for-profit organizations united by a vision for safer care and a healthier world. Our people-centered programs and services have been setting the bar for quality across the health ecosystem for more than 60 years. We continue to grow in our reach and impact. Learn more at <https://healthstandards.org/strategy/>

HSO develops standards, assessment programs and quality improvement solutions that have been adopted in over 12,000 locations across five continents. HSO is the only Standards Development Organization dedicated to health and social services. Global standards developed by HSO meet requirements of the International Society for Quality in Health Care (ISQua), and our National Standards are recognized by the Standards Council of Canada (SCC). All HSO standards and programs are shaped by evidence and experts, including people with lived experience.

HSO is seeking Subject Matter Expert(s) to support the revision of the Infection Prevention and Control Standards and Required Organizational Practices (*Infection Rates; Hand-Hygiene Compliance; Reprocessing*).

This work will include helping to define the future state of content, evidence reviews and synthesis, and revising content based on updated evidence and other applicable documents provided by HSO.

This process will be conducted by a small team, with each member working collaboratively to update content in a rapid, but rigorous manner.

### **We're looking for:**

- Extensive experience and expertise in Infection, Prevention and Control practices in health and social service settings.
- Well-developed analytical skills, including translating evidence into clear writing – evidence will need to be summarized into content which clearly articulates accountability, action, and outcome.
- Flexibility, with availability to work with HSO up to a maximum of 0.5 FTE until end-December 2022, and an eagerness to work as a team member.
- Knowledge and use of HSO standards both nationally and internationally specifically the use of the standard in accreditation and assessment programs is an asset.
- Bilingual English and French is an asset.

**Submit your CV and letter of interest to: [Candice.anderson@healthstandards.org](mailto:Candice.anderson@healthstandards.org)**

We are equal opportunity employer and are committed to the principles of Employment Equity. We encourage applications from all qualified women and men, including visible minorities, Aboriginal persons, and persons with disabilities. We thank all applicants for their interest; only those selected for an interview will be contacted. Accommodations are available on request for candidates taking part in all aspects of the selection process.
