

WEBINAR

FOR CONTINUING EDUCATION

WEDNESDAY, OCTOBER 6TH, 2021 | 7PM-8PM EDT

The Role of New Technologies in the Management of Biofilm

Webinar Access by: [Webinar Registration](#)

Objectives

1. Describe the mechanism of action for PluroGel[®], a concentrated surfactant gel and loPlex[®], an antimicrobial foam
2. Determine when to incorporate PluroGel and loPlex into practice
3. Recognize expected outcomes when using PluroGel and loPlex in wound healing

Presenters

M. Mark Melin, MD, FACS, RPVI, FACCWS

Dr. Melin is a surgeon and Medical Director of the M Health Wound Healing Institute, and an Adjunct Associate Professor in the University of Minnesota Surgical Department.

IN PARTNERSHIP WITH:

Lauren Wolfe RN, BSN, MCISc (WH), CWOCN

Lauren Wolfe is a certified WOC Nurse working at a private wound ostomy clinic, Macdonald's Prescriptions, and she also works part-time at Vancouver General Hospital.
