As Infection Control Professionals, do you have the fundamental basics of Occupational Health & Safety?

Empower yourself with the knowledge and skills to enhance your workplace health, safety and wellbeing.

Roles in Infection Control (ICP) and Occupational Health Nursing (OHN) are inherently collaborative, with many healthcare professionals often serving in both capacities. Enhance your expertise with our expert-led Occupational Health and Safety course, which includes additional training in disability management. Offered by the Ontario Occupational Health Nurses Association, this 7-week online course is taught by experienced OH&S professionals. Delve into essential concepts and practices to elevate your skills in managing workplace health, safety, and disability effectively.
